1. Introduction

The European Commission is committed to protect your personal data and to respect your privacy. The Commission collects and further processes personal data pursuant to [Regulation \(EU\) 2018/1725](#) of the European Parliament and of the Council on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data.

This privacy statement explains the reason for the processing of your personal data in the context of the European Maritime Day 2023. It explains the way we collect, handle and ensure protection of all personal data provided, how that information is used and what rights you have in relation to your personal data. It also specifies the contact details of the responsible Data Controller with whom you may exercise your rights, the Data Protection Officer and the European Data Protection Supervisor.

The information in relation to processing operation “European Maritime Day 2023”, undertaken by the Directorate-General for Maritime Affairs and Fisheries (DG MARE), Unit A3 of the European Commission, is presented below.

2. Why and how do we process your personal data?

Purpose of the processing operation: DG MARE, Unit A3 collects and further processes your personal data to:

- provide you with information about the European Maritime Day (EMD) 2023 (before, during and after the event),
- process your application for participation in that event,
- inform other participants that you are participating at EMD 2023 (only your name and surname, the organisation you represent, your city and country of residence; this information will be available only to the registered participants via virtual tools: lists of participants and an online map with the locations),
- allow you to attend the physical or the web streamed sessions and special footage from the conference via a special TV feature (the so called EMD TV),
- manage the calls for applications for workshops

Live web-streaming and audio-visual recording at the EMD 2023 of the speakers, organisers and participants, as well as photographs, videos and interviews will be taken during the physical activities of the EMD 2023 in Brest, France and during the special TV feature (virtual activities) of the event.

All TV material, namely, live interviews and footage of participants, will be used for the production of videos to be uploaded and published at the EMD special app.

These visual materials will be published at the EMD website, DG MARE Twitter and www.flickr.com (the audience or non-speaker participants are not photographed individually or in groups; they may however appear on panoramic photographs of the whole event/audience).

Participants that do not wish to be part of the above web-streaming, photos, videos, interviews and recording/publishing activities have the possibility to object to processing. Participants who also do not want to be photographed may choose to sit in back rows which are not recorded/photographed, by wearing special badges or by attending the event in a space of the conference premises without web-streaming or by turning off their camera.

Your personal data will not be used for any automated decision-making including profiling.

Your consent for these services can be withdrawn at any time: for withdrawing consent that you have provided in order to benefit from other services, please contact the controller of the event at MARE-European-Maritime-Day@ec.europa.eu
